Experience

Web Developer (WordPress) **Jan 2025 – May 2025**
Janardan Prasad Memorial Multipurpose Social Service Society (JPMMSS) *Remote*

- Designed and developed the official website **(https://jpmsociety.org/)** using WordPress.
- Customized themes and plugins to enhance website functionality and user experience.
- Optimized website performance, improving loading speed and responsiveness across devices.
- Implemented SEO best practices to increase website visibility and search engine ranking.
- Managed website content, updates, and basic security configurations.

Projects

Gauri Kitchen – Online Food Delivery System | *MERN Stack (MongoDB, Express.js, React.js, Node.js)* **2026**
- Developed a full-stack food delivery web application with user, owner, and delivery roles.
- Implemented secure authentication using JWT, OTP verification, and Google login.
- Integrated Razorpay payment gateway for online transactions and COD support.
- Built real-time order tracking and notifications using Socket.io.
- Designed RESTful APIs and MongoDB schemas for efficient data management and scalability.

AI Chat Assistant Web Application | *HTML, CSS, JavaScript, Gemini API* **2026**
- Developed an interactive AI chatbot web application with real-time messaging interface.
- Integrated Google Gemini API to generate AI-based responses dynamically.
- Implemented image upload functionality with base64 encoding for multimodal input.
- Designed responsive UI with animations, chat bubbles, and smooth scrolling using CSS.
- Handled error states, API failures, and input validation for improved user experience.

E-Commerce Website | *HTML, CSS, JavaScript* **2025**
- Developed a responsive e-commerce website with product listing, cart functionality, and checkout features.
- Implemented dynamic product rendering and add-to-cart logic using JavaScript.
- Designed clean and responsive UI for seamless experience across devices.
- Optimized performance and improved page load speed.

JPMMSS Official Website | *WordPress, SEO* **2025**
- Designed and developed the official website for a social service organization using WordPress.
- Customized themes and plugins to enhance functionality and user experience.
- Implemented SEO best practices to improve search engine visibility.
